Re: Final HPV Submission for the Quat Category

Dear Mr. Hernandez:

On behalf of the Quat HPV Challenge Task Group, attached please find the final submission for Quat Category under the US HPV Challenge Program, which is comprised of the following members:

Chemical Name	Abbreviation	CAS No.
Dimethylaminoethyl acrylate methylchloride	ADAM MC	44992-01-0
Dimethylaminoethyl acrylate dimethylsulfate	ADAM DMS	13106-44-0
Dimethylaminoethyl methacrylate methylchloride	MADAM MC	5039-78-1
Dimethylaminoethyl methacrylate dimethylsulfate	MADAM DMS	6891-44-7

The Consortium views its HPV commitment for the Quat Category as complete following its review of the available data, the submission to EPA of an initial set of robust summaries and a test plan, and, subsequent responses to comments including the attached updated materials.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Robert J. Fensterheim
Executive Director
